

# The Nesika News

## Who doesn't like a new beginning?

There is something special about the energy and excitement of a first day and today brought that feeling all over again. Thank you to everyone in our school community for your patience, flexibility, and support as we worked through the reshuffling of our student population. We are grateful to be on this journey together.

### **FOOD PROGRAM**

We offer simple breakfast options, snacks, and lunches for those in need. This is available to students who do not have food with them that day, or who simply need a top up. It is always good to check in with your kids to see if they have been packing big enough lunches – our days are busy and kids often eat more when they are busy using their bodies in active ways.

A reminder that there is no student microwave available at the school. Please do not send lunches or snacks that require heating. Thank you for your cooperation.

### **DROP-OFF/PICK-UP**

A friendly reminder that playground supervision begins at **8:30 a.m.** All students who are on school grounds are expected to remain in supervised areas.

We also provide playground supervision after school until **3:15 p.m.** While supervision is available, students are expected to make their way home or to their bus line immediately after dismissal.

When dropping off and picking up we ask that parents use the front loop as a drive through only. If you are going to exit your vehicle or stay at the school, please park in the lot.

### **Digital is our new Default**

Check out our school webpage: [Home - Nesika Elementary](#) Visit the site to stay informed with up-to-date information and posts highlighting what we have been working on at the school.

## The Digital World Moves Fast. Let's Keep Our Kids Protected

Keeping your child safe online while navigating the digital world - FREE family sessions available through **Safer Schools Together** on social media, cyberbullying, sextortion, and the AI world.

First session: September 15, 2026. Register at: [erase Family Sessions](#)
